

Department of Neurology

Division of Neurogenetics

Dear Reader,

My name is Claire Miller - I am a Pediatric Neurologist at NYU and first met a child with DRPLA several years ago. I know that DRPLA is a rare disease and can be devastating. I met the Compton Family and the AtaxiaUK Team and we at NYU were inspired to become a site for the first DRPLA Natural History Study. We are currently recruiting for this study and are happy to talk with you about the study and how you can enroll.

If you have any questions about the study, please contact the following study team members:

Danika Anganoo-Khan – Danika.Anganoo-Khan@nyulangone.org or 929-455-5629

Binu Joseph – Binu.Joseph@nyulangone.org or 929-455-5625

We look forward to speaking with you!

Sincerely,

A handwritten signature in cursive script that reads "Claire Miller".

Claire Miller, MD-PhD
Clinical Assistant Professor in Child Neurology
Specialization in Movement Disorders
